

EF154

Conversion Kit® for Komatsu P&H 4100XPC Rope Shovel

Ask to see Immersive Technologies' extensive catalog of quantified business improvements, solving problems in areas such as safety, productivity, reactive maintenance and the availability of skilled equipment operators.

REAL RESULTS
MEAN IMPROVEMENTS*

SAFETY	
↑ 56%	Correct Emergency Response
↓ 54%	Traffic Incidents
UNSCHEDULED MAINTENANCE	
↓ 65%	Brake Abuse
↓ 63%	Engine Overspeed
COST SAVINGS	
↓ 51%	Training Hours on Equipment
↑ 24%	Tire Life
PRODUCTIVITY	
↓ 16%	Spot Time
↑ 10%	Payloads

* All results are average in-field improvements, documented and verified by external parties.

Immersive Technologies' EF154 Conversion Kit provides the ultimate in training realism for mines focused on increasing operator safety, improving productivity and reducing levels of unscheduled maintenance. The Conversion Kit includes a replica cab of the Komatsu P&H 4100XPC Loading Control Center, with functional controls and instrumentation sourced directly from Komatsu P&H.

With mining equipment becoming increasingly technically sophisticated, the level of information, experience and organizational competencies required to accurately simulate these machines also increases. Through Immersive Technologies' industry experience, you can be assured your training solution will be the only accurate and true representation of the real machine available.

Expect Results

EF154 Conversion Kit[®] for Komatsu P&H 4100XPC Rope Shovel

Operational touch panel simulating the interface for the Centurion 5 shovel control system.

Genuine OEM Load Control Center, allowing fingertip access to the left and right switch panels and control of the major swing, hoist, crowd and propel functions for the C Series cabin.

OEM Control Panel including functional emergency shutdown switch, auxiliary working lights and wiper controls.

Conversion Kit Features

CONVERSION KIT[®] COMPATIBLE WITH SIMULATORS

PRO4 IM360 LX6

Innovative Simulator Training Software

Immersive Technologies' SimControl software includes a range of specific Komatsu P&H 4100XPC operator errors for recording and measuring incorrect operator behaviors. In addition, SimControl allows a trainer to initiate machine faults or incidents in order to train and assess operators in responding appropriately.

Training opportunities include:

- Accident Avoidance
- Maintenance Reduction
- Productivity
- Site Safety Procedures
- Situational Awareness

Industry Leading Mining Simulators

As the world's largest supplier of mining equipment simulators, Immersive Technologies has deployed solutions in 45 countries and works closely with mining operations and equipment manufacturers to solve real industry problems in areas of safety, productivity, reactive maintenance and the availability of skilled personnel. Immersive Technologies is the only equipment simulator supplier with a consistent and proven track record of delivering significant and measurable in-field improvements.

This experience, together with ongoing feedback from our mining customer base and Original Equipment Manufacturer alliance partners, has provided Immersive Technologies with the knowledge necessary to develop the industry standard in Advanced Equipment Simulators. Our Solutions incorporate the industry's most advanced training functionality ensuring your operators are safer and your site is more profitable.
